Passion for learning

Education

Bachelor of Science, Computer Science Major - McGill University

MONTREAL, CANADA

SEPT 2018 TO PRESENT

cGPA: 3.85 / 4.00

Expected Graduation: April 2022

Experience

Co-Founder - Renthusiasm

VANCOUVER, CANADA

JUNE 2020 TO PRESENT

Used **Flutter** to design an **Android and iOS application** to handle a matching system for potential landlords and tenants. Currently developing a system to allow users to "undo" previous actions.

VP Web Developer - McGill Student's Flying Club

MONTREAL, CANADA

JUNE 2020 TO PRESENT

VOLUNTEER POSITION

Updated and maintained a static website using **HTML and CSS** to promote the club to new members and potential sponsors. Currently developing a **dynamic website** using **React** for front-end and **Firebase** for back-end.

Personal Projects

Fluent-C Programming Language - C, Lexer, ASTs, Parser

JUNE 2020

Used **C** to design a **dynamically typed, interpreted programming language**, with a lexer, parser and a visitor that supports functionality for variables and custom functions.

Pathfinding Algorithm Visualizer - ReactJS, NodeJS

JUNE 2020

Created a pathfinding algorithm visualizer **web app** using **ReactJS** and deployed on **Github Pages** to demonstrate algorithms such as **Dijkstra's**, **A Star search**, and more.

League of Legends Deep Learning Match Outcome Prediction - PyTorch, Riot Games API

MAY 2020

Constructed, prepared and cleaned a custom dataset of **10 019** matches to train a **binary classification neural network** to predict the outcomes of Ranked matches of League of Legends, achieving a **validation accuracy of 97% on post-match data**, and **63% on pre-match data**.

strike_pose - wrnchAI API, Python

JANUARY 2020

HACKATHON PROJECT

Built a pose similarity detection program using the **wrnchAI API** and **Python** and a custom trained algorithm to determine the similarity of a user's pose to a previously set pose.

Personal Website - HTML, CSS, Javascript

DECEMBER 2019 TO PRESENT

Used **HTML**, **CSS**, and **JavaScript** to design a **static, responsive website** as an online resume and as the first learning tool in web development.
